

## WARRANTY

Voltair, Inc. warrants the 12-Voltair product against defective workmanship and parts in accordance with the warranty given to us by our suppliers for one full year. If during the warranty period it is thought that the unit becomes inoperative due to a defect, the product needs to be returned to the dealer to determine the proper course of action. The dealer will then contact Voltair, Inc. regarding a warranty inspection or replacement. Any warranty claim is void if the Voltair is altered, shows bad maintenance, shows abuse, or is dismantled without proper authority. Voltair, Inc. can request that the unit be returned for inspection.
